

YMS EPIC 2026

CHECK-IN INSTRUCTIONS

You will need to do 2 things:

- Create a Cloned Event Roster
- Upload your state-approved documents (including any guest players)

Note: Guest players do not need to be added to your cloned roster, but you must include their player cards with your state-approved documents.

GotSport Help for Building an Event/Tournament Roster

1. Log into your GotSport.com Account
2. From your Dashboard click on “Team Management”
3. Select Your “Team”
4. Click on the “Team Registration” Tab
5. Find the event name (YMS EPIC 2026) and click on the BLUE Box labeled “Rosters”.
6. Then click on the drop down box on the bottom right “Clone roster from” and select the “Official Roster” and then click Submit.
7. Please add jersey numbers for all the players who are participating. You can [click here](#) for instructions to do so.

Note: Do NOT add players or club pass players until you CLONE first. You can not CLONE if you have a player listed.

Important Information about CLONING your roster.

- If your team has an official state approved or US Club roster in GotSport, this is an easy step for you.
- If your team is registered with a state organization not using GotSport, you will need to Add a Player individually to build your roster. (Good news is that more tournaments are moving to this new system so you only need to build it once.)

Please note, you will NOT see the players listed on the “Roster” under the Event Roster until we approve each player to participate. In order to be approved, they must be on the GS Roster (above), have uploaded a player pass or photo on the roster.

How to Upload Official State-Approved Roster/Player Passes (Including Guest Players)

1. Log in to your GotSport account
2. From your Dashboard click on “Team Management”
3. Select the team you will be uploading the document for
4. Click on the “Team Registrations” tab
5. Find “YMS EPIC 2026” and click on the box labeled “Registration”
6. Click “Edit” and upload the necessary documents within their correct category

Player cards are required for all guest players. You do not need to upload passes for team members if your roster includes photos.
